Well Over 22,312 Ration Books Distributed Here

A total of more than 22,312 ration books was distributed last week through the staff in charge of the distribution under H. Ralph, Saanich. This figure excludes Ganges, Salt Spring Island, figures not yet being available.

Under the able administration of Mrs. Lorna E. McKenzie, the distribution of the new Ration Books, in Sidney last week, went off without a hitch.

Although many residents did not receive their books, 1,616 were distributed from the Sidney centre, the Scout Hall.

Those who forgot to make the trip to the hall, and who were unable to receive their new book must now make application either to the distribution centre at Royal Oak or in Victoria.

A corps of workers assisted Mrs. McKenzie at the Scout Hall, many donating an entire day. Those assisting included: Mrs. H. J. McIntyre, Mrs. J. W. McDaniel, Mrs. Wentworth, Mrs. J. Ramsay, Mrs. D. L. Ford, Mrs. F. Godfrey, Mrs. J. Ardagh, Mrs. J. Loughheed, Miss Dorothy Brethour and Mr. J. J. White.

More than 321 books were distributed from the Bazar Bay Store on East Road at McTavish. Under the direction of Mrs. J. J. Woods, distribution went off smoothly.

A total of 444 books was given out at the Deep Cove Trading Co. store and at the Madrona Store. The two centres were under the guardianship of R. D. Murray.

Miss E. V. Gwynne, of Ardmore Grange, distributed 49 books. A total for the outlying district of 814. Due to the vary-

ing times for distribution, complete figures are not available for all parts of the district. Salt Spring Island, deputy George Lowe, Ganges, B.C., and James Island, Mrs. J. Doran, are still unreported.

Distribution of Ration Book No. 5 was smoothly and efficiently carried out. The many workers, most of whom are experienced in the work, making the task a routine one of simplicity for the public.

Wounded in Action

Cpl. Bob Mounce, son of Mr. and Mrs. C. C. Mounce of Sidney, has been wounded in action in France. He is now in hospital in England.

Tpr. Alan Ferguson, of a Canadian armored corps unit, is reported severely wounded. His wife, Mrs. Jean O. Ferguson, lives on West Road, Sidney.

Galiano Club Elect Officers

The annual meeting of the Galiano Club took place at the hall on Monday evening, Oct. 16, W. Bond in the chair.

After the adoption of the minutes of the previous meeting and the financial statement, the following were elected to office: President, Mrs. E. Callaghan; sec.-treas., William Bond; committee, Mrs. G. Stewart, Mrs. Drouillard, Capt. A. Fisher; auditor, C. G. V. Morgan.

It was decided by the meeting that every effort should be made during the coming year to instal a lighting plant in the hall.

FULFORD SALT SPRING ISLAND

Cpl. Allan Lawrence, wireless air gunner, R.C.A.F., arrived from Rivers, Man. recently to spend a week's furlough with his brother-in-law and sister, Mr. and Mrs. R. Beutner, Fulford Harbour.

Mrs. Preston and a friend have been visiting Mrs. Preston's parents, Mr. and Mrs. Bruce Walker, Fulford Harbour, for a few days.

Pte. Ken Taylor, R.C.A.F., has returned to Patricia Bay, after spending the week-end at Beaver Point, the guest of Mrs. Frank Reynolds and son, Pte. Chester Reynolds.

Recent guests registered at the Fulford Inn are: N. Ryland, Otter Bay; Mrs. D. Cray, C. P. H. Newcombe, S. T. Aldous, Victoria; H. Jackson, local; Mr. and Mrs. H. Smith, Vancouver; Mr. and Mrs. G. Ferguson, D. Todd, Victoria.

Mrs. Walter La Barge has rented the Schofield property situated on the Fulford-Ganges Road. She and her two children moved in on Saturday last.

Walter and Gordon Cudmore returned home to Fulford Harbour on Saturday after spending a holiday, duck shooting at Ladner, and later visited relatives and friends in New Westminster.

Mr. Lawrence Hamilton and his fiancée, Mrs. N. Jones, of Victoria, have returned after spending the week-end at Fulford where they were the guests of Mr. and Mrs. A. Davis.

Mrs. P. J. O'Connell returned home to Fulford on Monday, after a week's visit to Vancouver, where she has been visiting friends.

(Continued on Page Eight)

The British Advance East of Tilly

Following a heavy opening barrage on June 25, British forces broke through the German positions west of Caen main defence point of Rommel's armored forces. Heavy battles ensued against German armor, and in three hours' fighting British infantry had driven forward from one to three miles, towards the River Odon. Picture taken during the early stages of the assault shows wounded German prisoners being brought in.

Hospital Dance Success

A most enjoyable and successful dance was held at the Fulford Community Hall Friday evening, Oct. 20.

This was in aid of the Lady Minto Gulf Islands Hospital, Ganges, and was organized by the board of management and women's auxiliary and assisted by the hospital staff. About \$150 was realized from the evening's entertainment.

A special ferry run to Swartz Bay, returning after the dance was made by the ferry "Cy Peck." Over 300 attended the dance, many coming from Patricia Bay, Salt Spring and the other islands.

The R.C.A.F. nine-piece orchestra was in attendance. Mrs. I. D. B. Drummond was convener for the dance and supper. Miss Betty Kingsbury, decoration convener, assisted by Miss B. Wilson, Mrs. L. Hayes, Miss Talpott, Mr. Bradley, Mr. Nels Bigman and others, decorated the hall with autumn foliage, cedar boughs and flowers. The stage was prettily decorated with ferns, foliage and

large bowls of dahlias. Around the walls cedar boughs, autumn foliage and flowers interlaced were arranged. Multi-colored electric lights were strung from the corners to the centre of the room, these added very much to the attractive decorations.

The supper tables were exceedingly pretty, carried out in Hallowe'en motifs and coloring. Black and yellow streamers centred each table with bowls of nasturtiums here and there, black cats, pumpkins and other Hallowe'en motifs. This was the work of the hospital staff.

Mrs. Drummond was assisted in the supper room by ladies from Ganges and Fulford. Helpers were: Mrs. W. M. Mount, Mrs. B. Peterson, Mrs. Mae Mount, Mrs. J. Cairns, Mrs. M. C. Lee, Mrs. P. C. Mollet, Mrs. H. McLaughlin, Miss Mary Lees, Miss Anne Lees, Mrs. I. McGillivray, Miss G. Shaw, Miss L. Stevens, Miss D. McDermott and others.

The hostesses for the dance (Please turn to Page Eight.)

\$183.50 IN STAMPS BY HIGH SCHOOL

SPORT

Congratulations to Bernard North and Mae Ferguson, the winners of the ping-pong tournament. This couple even with their faultless playing and close co-operation had to be right on its toes, for the whole tournament was one close competition.

PARTY

The Junior High students are looking forward to a masquerade party to be held on Friday evening. Prizes will be given for the most comical and most original boys' costumes and also for the prettiest and the most original girls' costumes. There will be a Quiz program, dancing, ping-pong, "hot-dogs," doughnuts and fun for all.

'TEEN-CANTEEN

On Saturday night students and their 'teen-age friends enjoyed many and varied games at the Canteen, under the direction of Mr. Breckenridge. Next Saturday the 'teen-agers will dance to the music of their gramophone.

WAR SAVINGS

The school war savings total for July, August and September was \$183.50, with Grade 9 making the highest contribution of \$53.25.

GALIANO ISLAND LEADS ENTIRE DISTRICT 'OVER THE TOP' ON FIRST DAY

REVIEW FOR OVERSEAS

The Review may be mailed direct from this office. Readers wishing us to mail a copy of the local paper each week to friends or relatives in the armed services may enter subscriptions now. Subscription rate is \$2 per year. If you mail your subscription to us please print correct name and address.

Exceeding its quota of \$6,000, Galiano Island oversubscribed the Seventh Victory Loan by 25 per cent on the opening day of the drive, Monday. Subscriptions are still being made from the island. Returns from Salt Spring Island, Mayne, Galiano and Saturna Islands are as yet unreported. Due to the scattered nature of the territory returns will be slow in being received.

Standings as at Tuesday night, October 24, after two days of canvassing, are as follows:

Entire Unit, 19 per cent of quota.

	Quota	Subscriptions	Per Cent
North Saanich	\$122,000	\$31,250	25
Galiano Island	6,000	8,750	145

DR. J. M. EWING SPEAKS "ON GROWING OLD"

The annual Thanksgiving Supper was held on Friday at St. Paul's United church. Nearly 100 guests sat down in the church parlor to one of those delicious meals for which the Women's Association of the church are so famous and the consensus of opinion was that they had really excelled themselves.

After supper an adjournment was made to the church where community singing was led by Mrs. Malcolm McLean at the piano while the ladies were clearing up.

The program under the chairmanship of the minister, the Rev. F. W. Hardy, M.A., B.D., was opened with the singing of "O Canada," followed by an address of welcome by the chairman whose theme was "Fellowship." Next came a short but excellent program consisting of the following items: Piano solo, Mrs. Malcolm McLean; two solos by LAW, Isabel Stewart and readings by Dr. H. T. J. Coleman of poems of his own composition: "Women's Fashions," "Spring Hat" and "Summer Moon"—Dr. Coleman then introduced the guest speaker for the evening, Dr. J. M. Ewing, principal of Victoria College, who gave a thought provoking address "On Growing Old" which despite its title had something in it for both young and old. He made quite plain the difference between growing old, pointing out the growing old gracefully and just ways to achieve and what to avoid in attaining the former object with several pointers to the younger ones on how to treat the elders. At the conclusion of his address Dr. Ewing answered questions. A hearty vote of thanks to the W.A., Dr. Ewing and the assisting artists moved by E. R. Hall and seconded by N. Frailek was followed by the National Anthem, bringing a most successful evening to a close.

Mrs. A. Runkel and her two children, Gerald and Jacqueline, arrived last week at Ganges, where they have taken up residence at one of Mrs. G. Borrach's cottages.

After a week's visit to Mr. and Mrs. G. J. Mount's cottage at North Salt Spring, Rev. and Mrs. J. C. Stewart have returned to Vancouver.

Mr. and Mrs. George Bury, of Vancouver, are spending a month or two at Vosvius Bay, where they have taken up residence at the house belonging to Mrs. Jensen.

Sgt. George Heinke returned to Victoria on Friday after spending a month's leave with his wife and children, at Vosvius Bay, the guest of his father-in-law, C. A. Goodrich.

N. W. Wilson, of Burnaby, and his daughter, Mrs. D. Hayes, left last Saturday to visit friends in Seattle. They will afterwards proceed to Portland, Ore., where they will spend a few days.

Mrs. Stuart Holmes returned to Ganges on Saturday after a few days visit to Vancouver, where she was the guest of Mrs. Maynard Mustard.

AC2, John Crofton, R.C.A.F., who has been spending about two weeks leave at his home, Ganges, left on Friday for Edmonton.

(Continued on Page Eight)

Ganges Man Killed in Action

According to official information received by his parents, Mr. and Mrs. Douglas Layton of West Vancouver and his grandmother, Mrs. W. Scott Ritchie, Victoria, Pte. Peter T. Layton was killed in action early in October while serving with the Sherwood Foresters, a British army unit.

Pte. Layton was born in Victoria 22 years ago, part of his boyhood was spent at Ganges which had been the home of his mother and grandparents and where many of his relatives are residing. He had been previously wounded in late June. His brother, Gnr. John Layton, R.C.A., is serving in Italy.

P.T.A. TO HOLD FIRST BAZAAR

Nov. 4 promises to be a gala day at North Saanich High school. This is the date set for the P.T.A. event of the year — its first bazaar.

A review of the plans made by the general convener, Mrs. A. Voegel, and the conveners of the various activities, promises fun and excitement for all.

The superintendent of education for the province of British Columbia, Dr. S. J. Willis, has generously consented to preside at the opening of the bazaar at 3 p.m.

Nine attractive stalls are being prepared to provide much that is useful and entertaining. There will be a kitchen stall where culinary articles of all kinds will be displayed; a household linen stall with its many articles for making the home beautiful; a plain sewing stall at which pretty dresses and dainty aprons may be obtained. Highly attractive will be the home-cooking stall where many palatable temptations will be found. There will be a garden produce stall, well-stocked with fresh and fresh-frozen vegetables, also bulbs and shrubs. The baby stall gives promise of bright new garments for the smallest member of the family. Attractive, unique gift suggestions will be offered at the arts and novelties stall and the "white elephant" stall. For fun and diversion the amusement stall will provide the answer with its contests, games, and "drawings" of several fine prizes.

To add to the pleasure of patrons a ten and floor show are being arranged for the afternoon. A dance in the evening will close what should be a memorable day for all.

Mrs. Stewart Snow has left for a fortnight's holiday which she will spend in Vancouver and Victoria. She will be the guest of Miss Norma Douglas in Victoria.

Mrs. M. Williams left for Vancouver on Tuesday last week where she will be the guest of Mr. and Mrs. Mortimer Lamb.

(Continued on Page Eight)

FIRE RAZES EMPTY HOME

A fire alarm, sounded at 1 o'clock on Thursday morning, was promptly attended to by almost a full turnout of volunteer firemen of the Sidney Fire Brigade.

Fire, of unknown origin, destroyed an unoccupied building on the Harrison estate, McTavish Road. A unit from the Air Force also turned out. The 300-gallon tank of the local brigade's had to be replenished during the fire. The men returned to the firehall at approximately 3.30 in the early morning.

Pte. Edward Peck Wounded in Action

Colonel Cy Peck, of Sidney, received word on Saturday that his son, Edward, has been wounded in action in Belgium.

Pte. Peck, who served with a Canadian Scottish battalion at the front is at present in hospital in England.

GALIANO ISLAND

Mrs. E. Callaghan with Patsy and Ronnie, left on Tuesday last week to visit in Vancouver. They will be the house guests of Mr. and Mrs. Moore.

Pte. Sgt. D. A. New, R.C.A.F., spent a brief leave at home prior to leaving for a northern station.

Mrs. Robert Bruce left on Saturday to visit her family in Vancouver. She expects to return in a week or ten days.

Mrs. Ed. Johnson with her two children, were the guests of Mr. and Mrs. H. Forsner last week-end.

Mrs. D. Kinneard and Donald left on Saturday to spend two weeks visiting their relatives in Vancouver.

E. J. Bambrick paid a brief visit to Vancouver last week returning home on Saturday.

Capt. V. C. Best, who was the guest of Mr. and Mrs. A. E. Scoones for several days of last week returned to Ganges on Saturday.

Mrs. Stewart Snow has left for a fortnight's holiday which she will spend in Vancouver and Victoria. She will be the guest of Miss Norma Douglas in Victoria.

Mrs. M. Williams left for Vancouver on Tuesday last week where she will be the guest of Mr. and Mrs. Mortimer Lamb.

SIDNEY, V.I., B.C., Wednesday, October 25, 1944

RESERVOIRS NEEDED

The need for more co-operation on behalf of householders in the district is apparent in the recent fire at an unoccupied building near McTavish Road. During this fire, the truck, with a capacity of 300 gallons of water, had to drive several miles to replenish its water supply. No available water was at hand.

If the house had been occupied, this delay may have caused the loss of life. If adequate water facilities were at hand the outbreak could have been more quickly subdued, with less loss of property damage.

In an interview immediately after the fire, A. Gardner, fire chief, expressed the wish that more tanks, or better still, underground water supplies, were available. "If a supply of water was available in every residence," he said, "then the chance of fire loss would be reduced to a minimum."

The logic is quickly apparent. And while many of us have no notion that our own home may burn, it is this contingency which must be guarded against. It is a chore . . . an expense, if you will, to have to construct a tank. Yet, upon thinking this matter over it will be found that a fairly large supply of water will serve many useful purposes. Should the spectre of fire invade your premises . . . the efficient fire department will have a better chance of subduing it.

After all, they are doing their share . . . let us help them by helping ourselves. Let us get going on those tanks now.

I.O.D.E. AID BOMBED BRITONS

The October business meeting of the H.M.S. Endeavor Chapter, I.O.D.E., was held at the home of Mrs. Frank Hunt.

Routine business was dealt with and circulars from the Kinsmen's Club re new project for raising money for their Milk for Britain Fund; Provincial Echoes Secretary, Organizing Secretary, and War Services convener were read by the Regent.

It was decided to hold a dance at the Knights of Pythias Hall the first Saturday available, funds raised to augment Overseas Cigarette Fund.

Instead of the usual Christmas parcels to boys and girls from this district overseas the Chapter sent Smiles 'n' Chuckles chocolates this year.

It was moved by Mrs. Shade and seconded by Miss Joan Thomas that this Chapter send \$1 to Provincial Chapter in response to a request to make Mrs. Sprott and Mrs. Martin life members of the order.

The business part of the meeting closed with a prayer and members then packed personal property bags for women of Britain who had been bombed out.

The next meeting will be held at the home of Miss Joan Thomas.

JAMES ISLAND

Miss Winnie Watson, accompanied by Miss Eileen McCreesh, Victoria, formerly of James Island, flew to Vancouver to spend the week-end with her aunt, Mrs. J. F. Watson.

Mr. and Mrs. R. Rivers have returned from a two-weeks' vacation.

Mrs. Weaver and daughter, Kerry, have been spending a few days with Mr. and Mrs. G. Mead-Robins.

Mr. and Mrs. N. Dickinson have received a cable from their son, Clyde, to say that he has arrived safely in England.

Mr. Herbert Rowland, secretary of the Canadian Chemical and Explosive Workers' Industrial Union, James Island, left Thursday for Toronto where he will attend the 60th convention of the Trades and Labor Congress of Canada.

Mrs. H. Green and son, Charles, have left for their home at Santa Monica, Calif., after visiting with Mr. and Mrs. W. G. Thomson for the past few months. En route Mrs. Green will stop at Alameda, Calif., to visit her niece, Mrs. E. Taylor, the former Nancy Christie, of James Island.

PENDER ISLAND

Mrs. J. Keiller has returned to her home here.

Mrs. Forbes has left for Vancouver after a ten days' visit with Mr. and Mrs. F. Moore.

Mrs. C. McLeod has also left for Vancouver after visiting with Mrs. Geo. Logan.

Colin McKay spent a day with his mother recently.

Mrs. D. Taylor and small son, Peter, have returned home after a brief stay in Vancouver.

Bruce Davidson is spending a few days on the island.

Capt. A. Phelps, Mrs. Phelps and small son are visiting the captain's mother, Mrs. F. Phelps, and his uncle, R. Colston.

Mrs. G. Carey has returned home after a week spent in Vancouver.

Mrs. G. D. MacDonald spent a day in Vancouver last week.

Mrs. McDonnell has returned after two months' stay in Vancouver.

Mrs. A. Davidson has arrived home after a week in Vancouver.

Mrs. Newham has left for Vancouver.

BRITISH WOMEN WIN PRAISE

Men and women on balloon and gun sites have mostly had a thin time in this war. They are the "boiled units" spoken of with pity in appeals for comforts and books. But they end the war with a blaze of glory that so far the keepers of public opinion have not sufficiently noticed. Mr. Sandy's statement on the flying bombardment gave them the honor they have earned. It was the forgotten men and women in khaki and blue who made it possible for us in London to let victory in France pass on its way unimpeded by civilian fears. Half of General Pile's anti-aircraft command are women. There, in a single statistic, is the tribute that countless words and many volumes have tried to pay to British women of war.

A good time was had last Saturday night at the dance. Come again this Saturday night.—Adv.

OUT OF THE MIST

By KIPPER.

"It's warmer, and you get the sunsets!" . . . "It's closer and you get a more interesting seascape." The two set answers for that old chestnut of a question: Where's the best place to live if you want to settle here and work in Sidney? The west side or the east side of the peninsula?

Something like the argument as to whether or not bricks had been made which would float in water. (There is little connection really, Kipper is a trifle befuddled this week). The fact remains that Pliny stated as follows:

"At Pitane in Asia, and the towns of Maxilua and Calentum, in Farther Spain, bricks are made which, once dried, do not sink in water, because they are made from pumice-like earth, which, when it can be moulded, is very useful."

Place names are always interesting. We are fortunate in this district in having such melodic sounds as Saanich, Shoal Harbor, Deep Cove, Madrona Drive, Royal Oak, Salt Spring Island, Galiano and many others, but we are brought up short at First, Second, Third, etc., Streets!

In the matter of surnames, many interesting derivations have been traced.

In the Middle Ages, in England, there was no class of retail dealers distinct from the craftsmen who fashioned the wares. And in the majority of cases the craftsman made and sold one article. And that fact accounts for many English surnames today. Take the bows and arrows which were our fighting weapons in early days. The surnames Bowyer, Bower or Bowmaker today, owe them to the craftsman who trimmed and shaped the wand of yew. The Fletchers or Flowers prepared the arrows; the Tippers, Stringers, and Horners tipped and strung the bows and the arrows, and made the horn nocks of the long-bow.

In the little churchyard of Kirk Michael, in the Isle of Man, amid the tombs of Bishops, there is a simple grave never without its bunch of flowers.

The inscription reads: "Here lies the body of a woman, unknown, unclaimed: Washed ashore, Dec. 8, 1880. 'Thou rulest the raging of the sea.'"

Why the flowers? It is a story of touching thoughtfulness. For years it was customary for the flowers used on the altar of the church to be afterwards thrown on the refuse heap.

One day after the unknown woman had been buried, while the earth on her grave was still brown, the woman who cleaned the church was moved by a tender impulse. She gathered up the flowers, and placed them on the grave.

She continued this service to the lonely dead week by week, and succeeding generations of parish cleaners have carried on the custom faithfully.

Having been taken to church for the first time the little boy said: "The music was good, but I didn't like the news."

In this age of high speed and radio the above may sound funny. There is the title and the material for a sermon in the remark, however.

VICTORIA, B.C.

ONE TEAM One Purpose

• Nearly a million Canadian men and women in the armed services of the Dominion, more than a million in war industry, and all the others on the home front—have one goal in sight, a complete and speedy victory.

Teamwork counts as never before, for now the game is in its final, crucial stages. We must all put forth extra effort, use even more of our resources, to make the finish swift and sure.

It is urgent that in this Seventh Victory Loan we each buy at least one more bond than we bought before. It is our duty to our teammates; our duty to our children who will enjoy the fruits of victory. Let us do our duty gladly, that we may earn our place on our winning team.

LET'S LOOK AT A VICTORY BOND

purely from the INVESTMENT angle!

Below is a comparison as to what happens to \$1,000 invested in Victory Bonds or held in a Savings Account. Accrued interest is shown as at November 1, 1944, and the comparison shows those who invested in a Victory Bond are exactly \$90.41 better off than those who left their savings in the bank. The figures are in the same proportion for a bond of \$100 or any other amount, and your banker will tell you that your savings in a Victory Bond are equally safe, and are convertible into cash at a moment's notice.

Think it over

\$1,000 Invested in the 1st Victory Loan, June 15, 1941,
has earned \$ 101.43
Present value 1,040.00
\$1,141.43

\$1,000 Deposited in the Savings Bank June 15, 1941,
has earned \$ 51.02

SIGN YOUR RATION BOOK

Now that ration book No. 5 has been distributed to the public, the Wartime Prices and Trade Board requests that book holders make certain that they fill in their address and telephone numbers on the front cover. The army of volunteer workers who gave up their time to hand over the books to the public worked under such pressure that they had no opportunity to write in the addresses of the applicants. O. H. Bell, regional superintendent of rationing, points out that the public should immediately add this information on the front cover so that if the book is lost it can be promptly returned. Instances frequently arise where books have been left in stores with no address on them and this means that the ration board is delayed in returning books to the rightful holder. "So, write your address and telephone number on your book at once," urges Mr. Bell.

Want Historic Documents

In an effort to preserve for posterity historic documents and relics badly needed by the provincial archives, Attorney-General R. L. Maitland has asked the legal profession and court registrars throughout the province to co-operate in the preservation of such documents which may come their way in the winding-up of estates. Such documents would include papers, newspapers, letters, photographs, relics, etc. The attorney-general's policy in this regard already is bearing fruit, some very interesting archive pieces already having been donated.

REST, A CURE
The various parts of the human body are not wear-proof. The only way to make them continue to function well is to give them a rest once in a while.

RAIN AIDS FORAGE CROPS

From the September report of the Experimental Station, Saanichton. With the advent of rain there has been a revival of growth in root and other forage crops. During the month alfalfa made greater growth than any other pasture or forage plant. On plots mowed in mid-August the plants stood 10 to 12 inches high at September 30. Fodder corn in the variety test suffered from the long period of drought and yields will be lower than in 1943. Early North-western Dent and Wisconsin No. 240 have been harvested. Considerable damage was done by pheasants to the cobs of both these varieties. Plots of crimson clover and several species of grass were sown for seed production. About four acres was also prepared and seeded to Pacific perennial rye grass. This area was divided into four plots, two of which were plowed and two received surface cultivation only, following wheat stubble. Soy beans have all been harvested. They matured in the following order: Manitoba Brown, Sept. 7; Pugnosa, Sept. 11; Kabott, Sept. 18; Goldsby, Sept. 26. Mangel seed was harvested from the plots at Fairbridge Farm, from the roots which received four different storage treatments last winter. The treatments were as follows: (a) pitted with leaves cut off, (b) leaves left on one week before topping, (c) leaves left on two weeks before topping, (d) leaves left on all winter in the pit. The experiment was laid out in the form of a 4x4 Latin square. No significant differences between seed yields occurred. The mean yield of seed was 2,533 lbs. per acre, the highest plot yield being 3,480 lbs. per acre, and the lowest being 1,044 lbs. per acre. Advantage was taken of this experiment to test two sizes of roots and two distances of planting. A portion of each plot contained roots 1-1½ inches in diameter, and another portion contained roots 1½-2½ inches in diameter. The larger roots yielded 2,814 lbs. per acre, which was significantly higher than the yield from the smaller roots, 2,251 lbs. per acre. One row 115 feet long was planted with roots 3½-1½ inches in diameter at about 3 roots per foot in the row (i.e. roots end to end). The yield of seed was 2,320 lbs. per acre. It is also valuable to note that the seed was cut while still in a bright green stage. With the green husk removed, however, the actual seed was a dark brown color. The seed dried and browned off satisfactorily by exposure to the sun for several days.

W.A. Meet at Salt Spring

The regular monthly meeting of the Salt Spring branch of the Women's Auxiliary was held recently in the Parish Room, Ganges, with Mrs. Holmes presiding and Ven. G. H. Holmes taking prayers and Bible reading. The treasurer's report showed a balance of \$102.79 and amounts were voted to the following: Columbia West Coast Christmas Cheer Fund, \$2.50; Diocesan Dorcas Fund, \$5; Orphans' Missions, \$5; subscriptions for 2 copies of Log of Columbia, \$2; affiliation fees, \$6. The matter of adding a wash room to St. George's Parish Room was discussed and a final decision to raise funds for the purpose was arrived at. Early in December a sale of work, tea and Christmas tree will be held, with Mrs. Holmes as general convener, assisted by Mrs. S. P. Beech, Mrs. H. Johnson, Mrs. H. A. Robinson, Mrs. W. Norton, Mrs. W. M. Palmer. Mrs. Johnson gave a report of the meeting called by the committee of emergent epidemics, which she attended as delegate. Mrs. Robinson read an interesting article by Rev. A. H. Holmes of Hartland, St. John's River, Nova Scotia, describing the work in his parish of the Women's Auxiliary. The president gave a report of the Sunday schools, stating that Mrs. J. Byron had now 16 pupils at North Salt Spring and Mrs. Gordon Reade at Vesuvius Bay, 18. The latter, who will be assisted by Mrs. George West, will, in future, hold her class in a room at Vesuvius Lodge, kindly lent by Mrs. D. Keith Wilson. A new member, Mrs. J. A. Big-ham, was welcomed to the organization. Tea hostess, Mrs. F. Stacey, assisted by Mrs. C. H. Carter.

Scouts at Ganges Hold Fire Practice

The Ganges troop of Boy Scouts held their regular meeting recently in St. George's parish room, Ven. G. H. Holmes, Scoutmaster, in charge. Twenty-four boys are now members of this troop and are attending very regularly; two boys have obtained their rank of First Class Scouts, a good number are now Second Class Scouts and David Weatherell has passed his test for Fireman's badge. The boys recently took part in Fire Prevention Week and, under the guidance of Chief Fire Warden A. B. Elliott and his helpers, put on a demonstration of fire fighting in the school grounds. Manning a bucket brigade, putting out a fire with the fog nozzle and stirrup pumps and rescuing a dummy from the fire were all part of the afternoon's work.

SUNLIGHT KILLS GERMS

Sunlight is one of the best disinfectants. It kills germs as surely as the strongest of man-made solutions.

Have you anything about your home, farm, barnyard, garden, basement, etc., that you are not using? If so, place a "For Sale" ad. in our classified columns and sell it to someone who is needing that very article.

Guild of Sunshine To Purchase Bond

The Guild of Sunshine held its regular monthly meeting recently at Ganges Inn, with the president, Mrs. G. J. Mouat, in the chair. Routine business was transacted and the financial statement showed a balance of \$52.64 on hand. The monthly report of the Lady Minto Gulf Islands Hospital was given by Mrs. F. H. May and Mrs. Bennett was appointed hospital visitor for November. The following were elected stall holders for the annual sale of work to be held at Ganges Inn on Thursday, Nov. 16: Tea, Mrs. F. Sharpe, Mrs. May, Mrs. W. Stevens, Mrs. H. Noon, assisted by Mrs. R. Nichols; needlework, Mrs. Stuart Holmes, Mrs. Bennett; superfluities, Mrs. H. Johnson; plants and flowers, Mrs. G. J. Mouat and Mrs. W. Norton; home cooking and produce, Mrs. F. H. Newnham and Mrs. Laurie Mouat; all members promised to support the stalls and tea with donations. It was definitely decided to take another Victory bond, this being the sixth to be purchased by the organization. Two new members, Mrs. J. Dewar and Mrs. Somerville, were welcomed. Tea hostesses, Mrs. Bennett and Mrs. Stevens.

PENICILLIN NOT FOR RHEUMATIC FEVER

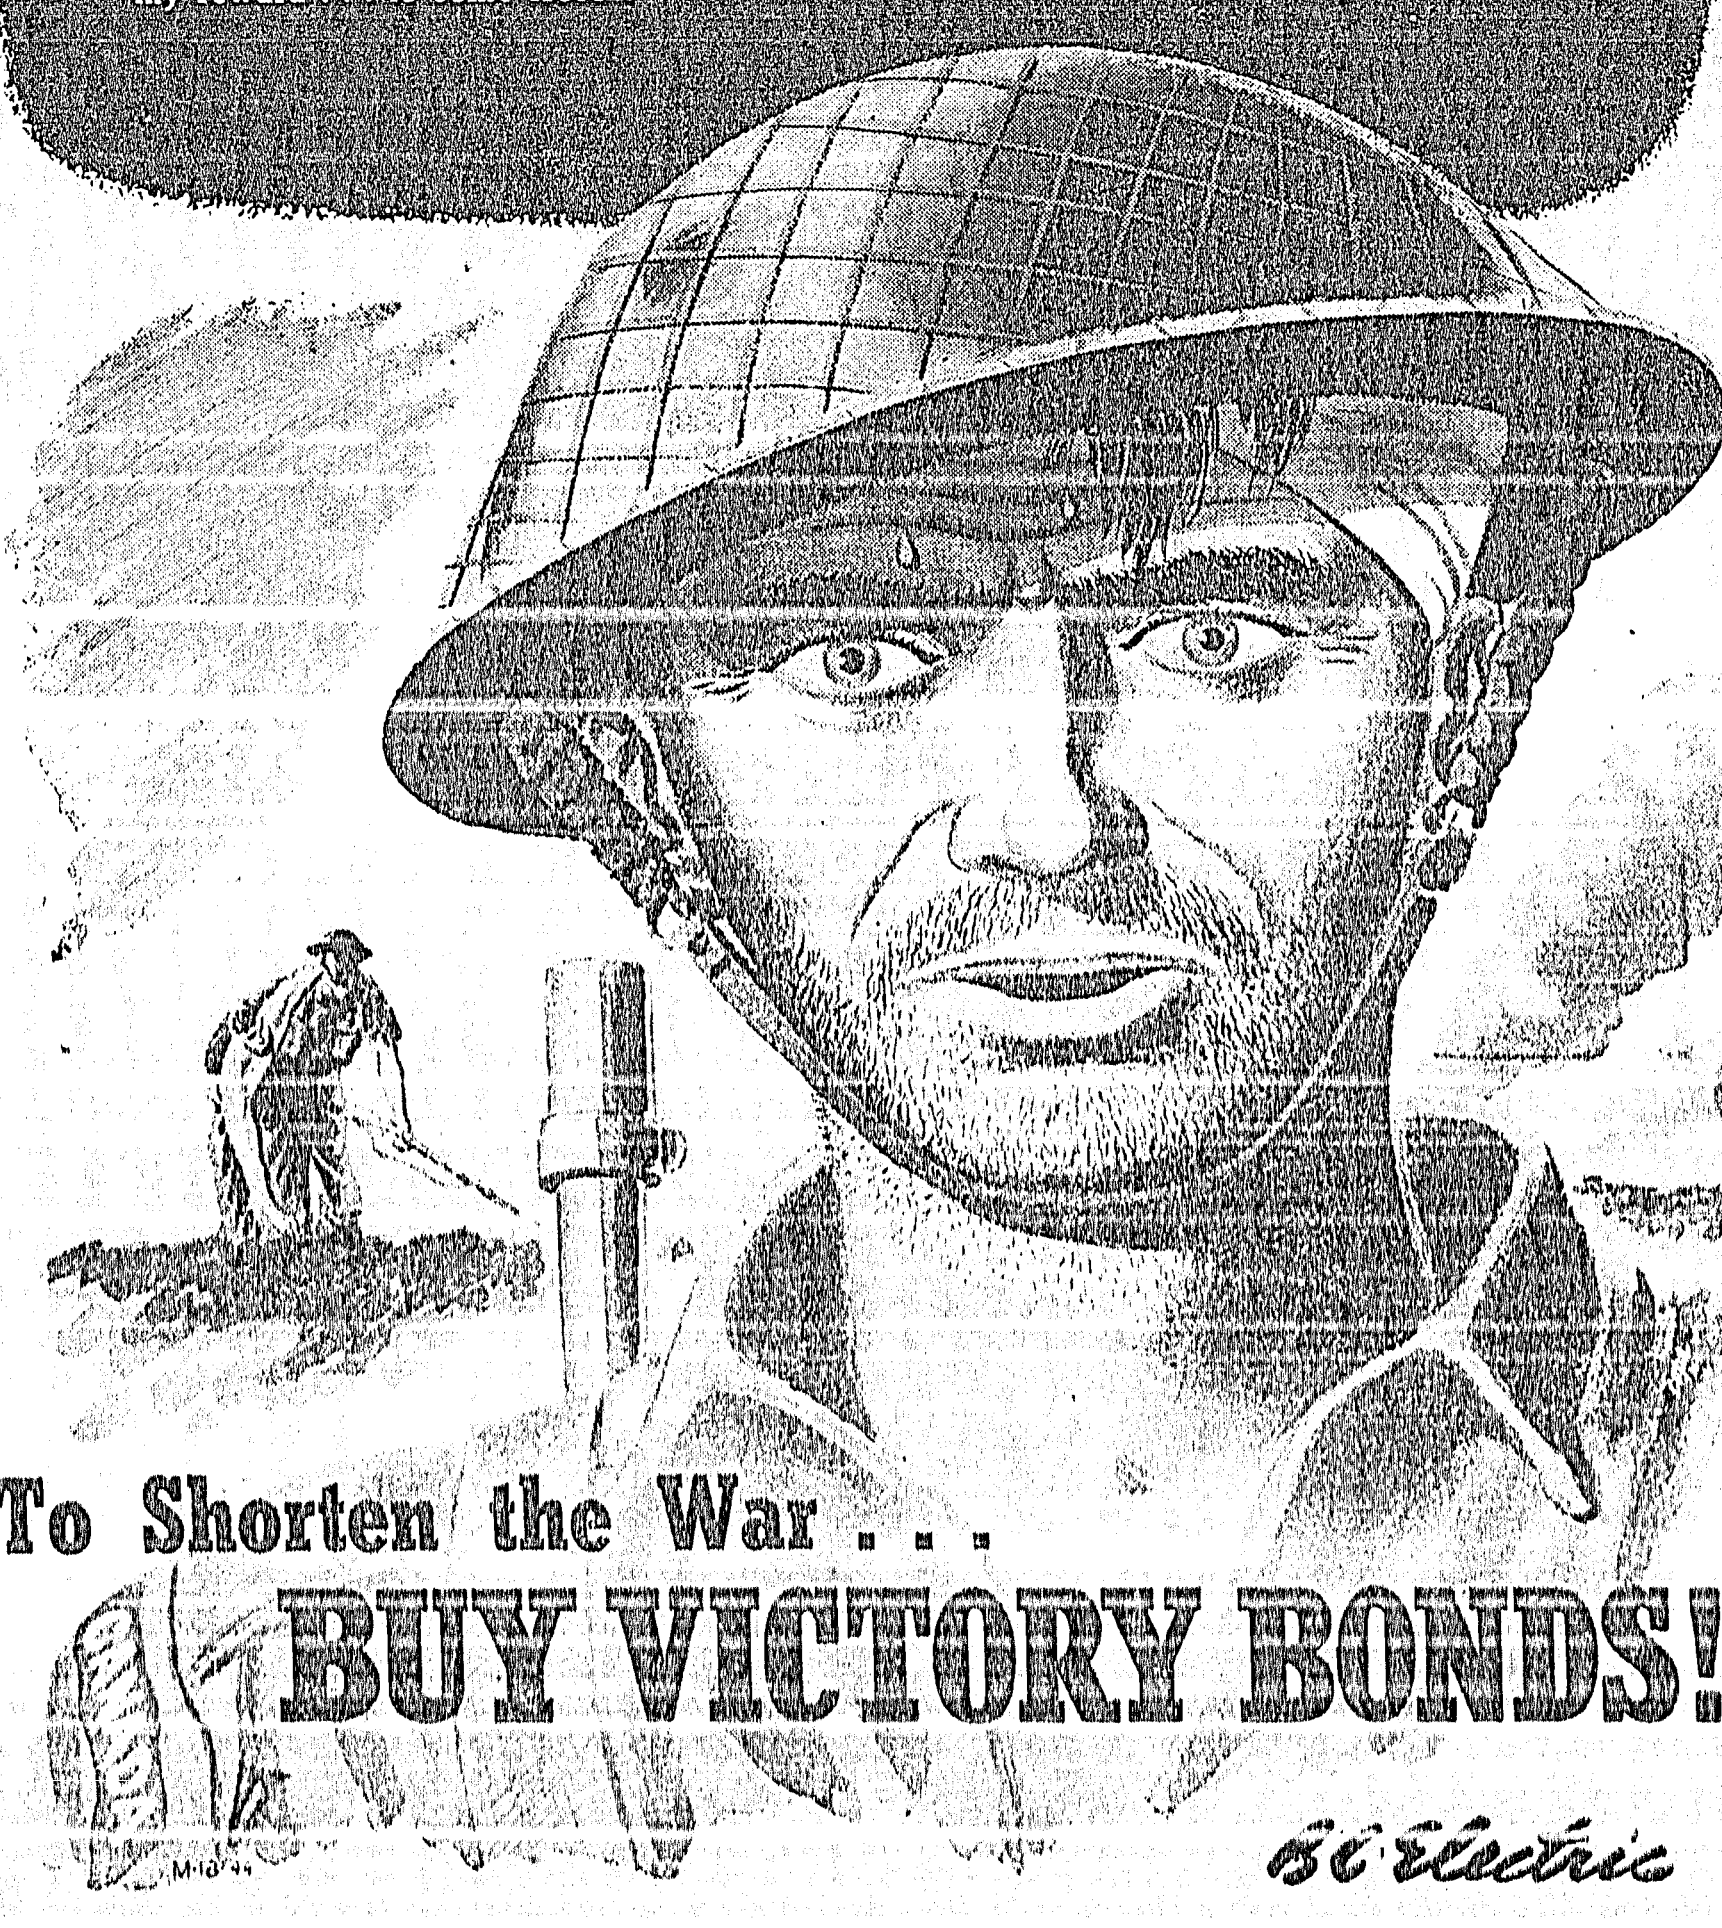

Penicillin appears to have no value in the treatment of acute rheumatic fever, two separate groups of investigators declare in separate reports in a recent issue of The Journal of the American Medical Association.

THE ROMANS DID IT
Cleanliness is not only next to Godliness—it also is precept No. 1 in disease prevention and contagion control. The Romans of 2,000 years ago bathed at least once a day. Two thousand years of progress have not made this health precaution any less necessary.

Bundles for Britain Still Needed

Clothing for bombed out civilians is one of the major problems of the Canadian Red Cross Society in England today. With thousands of people left homeless and deprived of all their possessions, it has been necessary to set up a relief depot at Red Cross headquarters which handles all the articles of clothing made by the women's war work groups in Canada. In fact all clothing issued to British civilian victims of bombing, with exception of shoes, have been made by Canadian women.

By the end of this year, members of B.C. Red Cross work units will have contributed nearly 120,000 articles of civilian clothing for this purpose, reports Mrs. H. A. Ramsden, provincial war work chairman for the Red Cross. In addition they will also have made 442,000 surgical dressings, 7,780 hospital supplies and 71,950 items of service knitting.

Good Harvest

A good harvest is anticipated in Britain. Wheat, oats, beets and potatoes all promise well. Potato acreage in England and Wales has increased steadily since the beginning of the war as is shown by the following figures:

1939	454,327	acres
1940	537,186	acres
1941	777,307	acres
1942	898,385	acres
1943	957,043	acres

It is expected that the crop yield this year will be about seven tons an acre, as in 1943.

BRITAIN BUILDING AIRLINERS

"We have complete faith in the genius of our aircraft to win a proper place in civil aviation," stated Lord Beaverbrook, opening the House of Lords debate on British civil aviation. The following material, received by cable from London, gives background to this pronouncement.

Britain's airliners of the future are taking shape. With the end

of the war will begin the age of air transport.

The British aircraft industry, which during the war has stepped up its production, despite bombing, the blackout, the dispersal of plant and many other difficulties, to a figure equivalent to 5,000 planes per month delivered in fighting trim to the battle fronts scattered all over the world, is thinking ahead to the needs of civil air transport. While working with undiminished energy to meet every requirement of the war in the air, British engineers are now turning their attention to the design of new types of British transport aircraft. Some are on the drawing board; some nearing flight; while one or two types have already taken to the air.

Greater safety, increased comfort, and higher speeds are the main factors which will be achieved as a result of the experience gained in the war. Amazing developments in radio have revolutionized the navigation danger due to icing when flying at high altitudes. This has been overcome by means of air-conditioned pressure cabins, which will ensure perfect comfort for passengers, regardless of altitude or speed.

Airliners flying on main Empire air routes will cruise at speeds in the region of 240 miles per hour. This has been made

Dormitories For U.B.C.

The provincial government and the University of British Columbia are considering the establishment of dormitories for out-of-town students. It was announced this week by Premier John Hart, following a conference with Dr. Norman MacKenzie, the new president of U.B.C.

It is planned to operate these dormitories under university supervision so that students may secure room and board at very reasonable rates, thus making it infinitely less difficult for students throughout the province to continue with their higher education.

In considering this step, both the university and the government recognize the claim of residents in all parts of the province that some provision should be made for out-of-town students so that those who are unable to find proper accommodation will not be at so great a disadvantage compared with those attending university and residing within the greater Vancouver area.

Maple Crop Most Valuable in Years

Stated in terms of maple syrup, the 1944 maple crop is estimated at 3,090,400 gallons, an increase of 790,600 gallons or 34.3 per cent over the 1943 crop. The 1944 crop consisted of 2,869,000 gallons of maple syrup and 2,207,700 pounds of farm-made maple sugar, compared with a production in 1943 of 2,058,200 gallons, and 2,146,000 pounds, respectively. The total production in 1944 also exceeds the ten-year average of 2,000,000 gallons by 18.9 per cent.

Supplies were inadequate to meet the heavy demand and the bulk of the crop sold rapidly at falling prices for all grades. There was a definite tendency this year for growers to produce syrup at the expense of the sugar crop, the make of syrup showing an increase of 39 per cent over 1943 while sugar production declined 9 per cent.

The total farm value of the combined production of maple syrup and maple sugar is estimated at \$9,055,300, an increase of \$3,305,000 or 57.5 per cent over the 1943 crop valued at \$5,750,300. The values by provinces, with the corresponding values in 1943 within brackets, are Nova Scotia, \$45,400 (\$31,300); New Brunswick, \$75,700 (\$65,700); Quebec, \$7,335,000 (\$4,198,000); Ontario, \$1,569,200 (\$1,454,400).

MORE APPLE JUICE

The Wartime Prices and Trade Board announces that 500,000 cases of apple juice fortified with vitamin "C" will be available for Canadian consumers this winter. This is not rationed. The half million cases for civilian consumption will be processed from this year's apple crop.

All restrictions on tin allocations have been removed so if more can be canned, processors may increase the output.

Imports of grapefruit juice have been reduced from 700,000 to 400,000 cases.

In addition to the big saving in

BALED HAY PRICES SET

Ceiling prices on hay grown and sold in Ontario, Quebec and the Maritime provinces have been set by the Prices Board in an order effective Oct. 20, it was announced today.

The new order fixes a basic maximum price for growers and shippers of \$18 a ton for baled hay loaded on cars at the shipping point nearest the area of production.

subsidy payments, the switch from grapefruit juice to fortified apple juice will help to market Canada's apple crop.

Pte. Thomas Atkins, Hero—The Original British "Tommy"

All the world knows the British soldier as "Tommy"—short for Thomas Atkins. But how many people know who Thomas Atkins was, and how this name came to be applied to the British soldier? Thomas Atkins is no hero of fiction, but a real soldier—a hero of former days, who died in battle at Bostel, a few miles northwest of Eindhoven, where just lately the Second Army fought so bravely to relieve the heroes of the Airborne Division at Arnhem.

In September, 1794, General Abercrombie's brigade, which included the 33rd Foot under Arthur Wellesley (later to become the Duke of Wellington) was retreating under pressure from the French, and had just repelled an especially savage attack, when Thomas Atkins, a soldier of 20 years' service, and the right-hand man of the Grenadier Company, was left lying on the battlefield with a bayonet wound in his chest and a bullet in his lungs. His course was almost run; so he asked that the bearers shouldn't move him but that they should allow him to die in peace. Colonel Arthur Wellesley, moved to the side of the dying soldier, but Thomas Atkins, seeing the grief in his young Colonel's face, gasped out: "It's all right Sir. It is all in the day's work."

Half a century later, the now aged Duke of Wellington stood on the ramparts of Walmer Castle with an officer who had come down from Whitehall with papers for the signature of the Commander-in-Chief. One of these was a pro forma document relating to soldiers' pay, which as a matter of courtesy was being referred to the Duke with the request that some name, typical of the common soldier, should be inserted as a specimen signature. "Could his Grace suggest a name?" the officer enquired. The Duke moved forward to the edge of the ramparts, and stood for some time in silence gazing out to sea. What a panorama must eyes as he looked back beyond the have passed before those dimming blood-drenched slopes of Waterloo, the broken mountains of the Pyrennes, the tawny plains of Spain, the olive groves and cork woods of Portugal, and the torrid flat lands of India. But it was on none of these things that his memory lingered. As so often happens with old soldiers, the mind of the aged Duke went back to his early days of campaigning. After a long pause, he turned to his interlocutor and replied, "Private Thomas Atkins."

WAR PRISONERS' GARDENS

The inspection of prisoner of war gardens in Canada, grown from seed forwarded by the German Red Cross, has been completed at six internment camps by the Plant Protection division, Dominion Department of Agriculture. No evidence of introduced pests was found and the plants grown from the seed in question appeared healthy and well attended. Camp commanders, interpreters, and Nazi prisoners cooperated with inspectors in facilitating the examination of the garden plots.

MORE KINDS OF PUMPS

Lifting of the order of the Wartime Prices and Trade Board standardizing pumps does not mean that there will be more units available, says the administrator of farm machinery. The number of pumps which may be produced per year was fixed by an order effective last July. However, lifting of the standardization and simplification regulations will permit manufacturers to produce, if they wish, a greater variety of types and sizes. Power pumps and pressure water systems are the only types on the rationed list.

VALUE OF HUMUS

Humus is formed by the decay of organic matter, such as refuse, leaves, and domestic garbage. It is one of the most important constituents of all soils and performs several functions. It improves the texture of the soil by lightening heavy clays and binding light holding capacity of all soils, and sands. It increases the moisture in the natural storehouse of the soil's nitrogen, the most expensive plant food in commercial fertilizers. Humus also contains appreciable quantities of other plant foods.

PAGE MR. HENRY KAISER!

A team of men and women working at Newcastle-on-Tyne, in Northern England, have created a record. In 47 hours 33 minutes they built a full-size tank-landing craft for use by the United States Navy.

BEWARE THE COMMON COLD

The common cold should never be neglected. It can be the open door through which enter sinusitis, bronchitis and pneumonia. Prompt action can close the door and avoid dangerous complications.

MILK FOR MEN

Milk has just about everything in food values. Everyone knows that children should have plenty of milk daily but it sometimes is overlooked by adults that they, too, should drink at least half a pint daily.

REMOVING CONTROLS

As recently announced by Donald Gordon, chairman of the War-time Prices and Trade Board, restrictions on the manufacture of many articles are being lifted steadily.

Restrictions recently removed deal with such metal products as lawn mowers, non-electric stoves, electric fans, electric cooking plates or grills, warm air furnaces, fluorescent lighting fixtures, metal signs and articles of store and office equipment.

More metal has been released

for containers for products such as baking powder, lighting fluid, dehydrated vegetables, spices, disinfectants and aluminum paint. Containers will be made from rejected and waste metal.

School supplies, social stationery, stenographers notebooks and shipping tags are among the variety of paper products on which restrictions have been lifted.

It is pointed out that although the Board has lifted these controls, this does not carry priority for labor or materials. If these materials and labor are needed for more essential war work, manufacturers will have to wait their turn.

Children's Underwear In Better Supply

Some interesting facts about production of underwear and children's footwear were given recently by E. G. Burton, administrator of retail trade, Wartime Prices and Trade Board.

Manufacturers in Canada had been directed to produce large quantities of children's underwear but, Mr. Burton pointed out, machines are useless without labor and it was necessary to discuss with Selective Service the problem of getting increased manpower to the mills turning out children's underwear.

"Nevertheless, the net result of this program has substantially increased supplies of smaller sizes of underwear," went on Mr. Burton. "This is not a myth, it is a fact borne out by carefully checked production figures from all the mills. The situation is a vast improvement over that prevailing two years ago, and even last year."

"The Board has exerted the same effort to maintain and increase the production of children's footwear, which, in fact, shows an expansion of almost one-third in pairage over last year. But the combination of more babies and money, creates a demand that even the hardest working Board

official can't cope with at times, so there is bound to be the occasional shortage here and there."

"Production programs have also been planned in other essential lines in the textile and clothing fields, such as children's socks and outerwear, women's stockings, etc., and I am glad to say that the great majority of these requirements are being met or more than met. Looking at other lines, we have now satisfactory quantities of flannelette. Cotton goods are still in reasonably short supply since we are now entirely dependent on the United States for imports of these goods," concluded Mr. Burton.

"Everything the Canadian troops have done...they have done magnificently"

"MONTY!"

The name strikes a chord of admiration in the heart of every man and woman in the British Empire . . . in all United Nations. It spells defeat and disaster for the German people.

For Monty knows how to win—if he has enough good men, enough good planes, guns and tanks and shells.

"Today," Monty has said, "a battle must be won before it is fought." And in the pages of history, the term, "Monty Barrage" will be used to describe his essential preliminary to attack . . . thousands of guns pouring destruction on the enemy. And if our Allied Commanders are to keep mounting a succession of offensives, supplies of planes, tanks, guns and shells must never slacken.

Canada's Victory Loans are essential to provide the money to build these weapons. The 7th Victory Loan will soon commence. To make it a success, every Canadian must play a part on the home front worthy of the heroic efforts of the men and women bearing the brunt of battle.

Buy One More Bond Than Before

By doing this you will create a nest-egg of savings for the future. And remember, now that Compulsory Savings have been relinquished . . . an additional 70 million dollars must be raised in Canada through Voluntary Savings in Victory Bonds. Since the war is now in its most intensive stage, Canada's over-all borrowing must increase by some 320 million dollars. Plan now to buy at least one more bond than before.

Field Marshal
Sir Bernard Law Montgomery,
C.B., D.S.O.

The idol of his troops is this keen-eyed man in the black beret whom all the world knows as "Monty." "A good general must never lose," he says. That is why he never launches a campaign until he is certain of victory. Then it's attack, attack, attack! Re-form and attack again. "But don't forget!" warns Monty in characteristic language, "supplies must come up . . . up . . . up!"

BEACON AVENUE

SIDNEY, B.C.

Pioneer Days

Taken from the files of the Sidney Review of 20 years ago:

Mr. Godwin, of Bradley-Dyne, Patricia Bay, had a radio installed in his home. Installation was made by technicians from New Westminster.

Sidney Mills held a fire drill in step with the Provincial Fire Protection Week which was active in campaigning against fire.

The Sidney Board of Trade sent a resolution to the Associated Boards of Trade at Kamloops to the effect that they were in favor of the registration and licensing of all drivers of privately-owned motor vehicles.

The care of a white bear cub was causing alarm to "Observer." The cub, captured by Indians in the northern part of B.C. was sold to white trappers, who turned the animal over to the Provincial Police. The police turned it over to the City of Victoria, who turned it over to the Curator of the Museum, who turned it over to the custodian of the Beacon Hill park. It seems the small bear was not resting easily.

The Mill Bay Ferry was at last in operation. Sidney Board of Trade congratulated themselves on being the prime movers in getting the ferry organized.

Residents of Galiano Island gathered during the week to discuss the building of Galiano Hall.

Mr. and Mrs. Hugh J. McIntyre, of Winnipeg, were visitors in Sidney, having motored out from the prairie city.

The Deep Cove Social Club commenced regular weekly meetings. Due to rainy weather only seven tables of cards were in play.

Schoolboy Howlers

Laughter comes hard these days —another tragedy of war. But that there are a few chuckles left on the home front is indicated by some definitions given by a group of school students:

A myth is a female moth.

A brunette is a young bear.

A blizzard is the inside of a fowl.

Edison was the inventor of the indecent lamp.

A Socialist is a man who goes to parties all the time.

Immortality is running away with another man's wife.

In the West the farming is done mostly by irritating the land.

To protect the North American Indians the government has put them in reservoirs.

An optimist is a man who looks after your eyes. A pessimist looks after your feet.

Head Treatment For Lettuce

From the September report of the Experimental Station, Saanichton.

In order to ascertain the effect on bolting in New York No. 12 lettuce, head treatments given to plots of New York No. 515 and Hanson in 1943 were repeated.

These consisted of (a) stripping the heads to the core, (b) slicing the heads in half horizontally and removing the outer leaves, (c) scoring the head in the form of a cross and removing the outer leaves (d) leaving the head intact and removing the outer leaves, and (e) check.

These treatments were given to plants in each of two different seed plots, when they had formed a hard head.

One plot was sown March 21 and the other March 31. The data obtained show that in each planting the stripping treatment resulted in quicker bolting of plants than any other. This was particularly noticeable in the later planting where the average height was 4.8 inches more than the check plots. In all other treatments average plant heights were less than in checks.

Other data showed that after the stripping treatment fewer plants bolted in the first planting, being 6 per cent for the early and 8 per cent for the later planting. There were no consistent differences for any of the other treatments, with a range of bolting failures from 19.3 to 30.7 per cent in the first planting and from 39.4 to 43.6 per cent in the second.

The evidence to date shows clearly that stripping in New York types is the most satisfactory head treatment. With a little practice it has been accomplished quite readily in well grown plants, by giving the top of the head a sharp blow with the open palm, and then taking the head in the fingers and removing it with a twisting motion.

In bright warm dry weather it was done more easily in the early part of the morning when the leaves were more brittle and tended to shatter more readily than late in the day. If head treatment was delayed, there was found to be a distinct danger of damaging the elongating core.

CANADA'S VETERANS

Their Post-War Opportunities

This is the Fourth in a series of advertisements to inform the people of Canada of plans to re-establish men and women of the armed forces. To get full details, save and read every advertisement.

For complete information, write for the booklet, "Back to Civil Life."

Home and Farm Ownership — The Man Who Wants His Own Business

There are two ways in which Canada's service people can have homes of their own. One measure, the Veterans' Land Act, provides assistance in financing homes on small acreages of land outside the high taxation area, while the re-establishment credit may be used for purchase or building of a home in town or city. Low cost financing is available under the National Housing Act. Under the Veterans' Land Act, assistance is given in financing up to a maximum of \$4800 for land and buildings. The veteran must be prepared to pay down 10 per cent of the cost of land and buildings and the property is then sold to him for this down payment plus two-thirds of the cost. This balance may be financed, if necessary, over 25 years, with interest at 3 1/2 per cent. A further grant may be made for purchase of equipment.

The veteran is given title to the property, including the grant of 23 1/3 per cent of the cost of land and buildings and the money for equipment, after he has lived up to his agreement for ten years.

If the re-establishment credit is used for a home, the veteran must be prepared to put up one dollar for every two dollars used from it. This type of assistance may be applied for at any time within 7 years of discharge.

FARMERS AND COMMERCIAL FISHERMEN

Veterans qualified for full time farming and for commercial fishing may receive assistance in purchasing a farm or home under the Veterans' Land Act in the same way as the veteran wanting a home on a small acreage, outside the high taxation area. In the case of full time farming, an additional grant of \$1200 is available for purchase of stock and equipment, and in commercial fishing the commercial fisherman may receive up to \$1200 to buy needed fishing equipment. To benefit under any of the three provisions of the Veterans' Land Act, the ex-service man or woman must have overseas service or at least 12 months' service in Canada.

TO ASSIST BUSINESSMEN

One purpose for which the re-establishment credit may be used is to buy a business or to provide working capital for a business. Here again application may be made at any time in the 10 years after discharge.

In addition to using the re-establishment credit in this way, people who start their own businesses, or farmers, may draw maintenance grants, during the period they are awaiting returns from the business or the farm. These grants may be paid in the first 18 months after discharge, for the period of service, and up to a maximum of one year.

VETERANS' WELFARE OFFICERS ARE STATIONED IN KEY CENTRES THROUGHOUT CANADA. THEY ADVISE AND ASSIST EX-SERVICE PERSONNEL, AND SHOULD BE CONSULTED ON ALL PROBLEMS.

were: Mrs. W. Holmes, Mrs. H. Lindskog, Mrs. Wolfe-Milner, Mrs. McLaughlin, Mrs. Hayes, Miss Betty Kingsbury, Miss L. Stevens, Miss Dorothy McDermott, Miss Bryde Wilson, Miss Betty Mouat, Miss Vivian Layard, Miss Dulcie Crofton. The sandwiches were made by Mrs. Drummond assisted by Mrs. Bryant, Mrs. J. Cairns, Mrs. Tassell, Mrs. M. C. Lee and Miss G. Shaw. Donations towards the supper were given by the Victoria Master Bakers' association, Canadian Bakeries Ltd., Mrs. W. M. Mouat, Mrs. E. Parsons, Roseneath Farm, Mrs. C. Kingsbury, Mrs. Stacey, Mrs. Drummond, Mrs. Sholes, Mouat Bros., Mrs. Cairns, Mrs. G. St. Dennis, Miss Lees, Mr. C. Beech, Price Bros., Mrs. Gilbert Mouat, Mrs. A. Inglis, Mrs. Davis, Mrs. McKaye, Mrs. Lacy, Mrs. Stuart Holmes, Mrs. Lowe and Miss Beddis.

BRITAIN BUILDING AIRLINERS

(Continued from Page Five.)

ties of this machine. The passenger cabin will have room for 50 passengers, with sleeping berths for night flying. There will be a kitchen for serving meals, and room for 16,000 pounds of freight. This machine has been designed for long, non-stop hops on the main air routes of the world. A pressurized cabin will give perfect comfort to the passengers at a height of 10,000 feet and at a cruising speed of 240 miles per hour.

British designers are also thinking of smaller aircraft to be used on feeder lines connecting with the big terminal airports. The De Havilland Dragon Rapide had a world-wide reputation before the war for reliability and simplicity of maintenance for work on internal air services. While continuing the production of the Rapide, new passenger planes have already been designed by this famous company. Known as DH104, this light, low-wing monoplane is powered by two Gipsy engines and has accommodation for eight passengers.

The British flying boats have proved their durability for long Empire air routes. The famous Sunderland flying boat, which has carried the war in the air far out over the ocean, was evolved from these short class "O" flying boats. The new Sunderland Mark 4, with the latest four-bladed propellers and other new developments, is

Your Victory Loan Salesman Has This Letter

IT ENABLES YOU TO BUY VICTORY BONDS THROUGH YOUR BANK ON CONVENIENT DEFERRED PAYMENTS

● You say you want to do all you can to help Canada's war effort. Then you will keep on buying Victory Bonds. You will buy all you can.

You recognize the obligation that we, at home, owe to our men overseas. You know that stocks of munitions which our fighting men need are being depleted and must be replaced. You know that more munitions must go forward—and you will buy Victory Bonds to help pay for them.

You would like to be able to buy more bonds, you say. Well here is how you can do it. You can buy more bonds with money as you get it. Any bank will loan you the

money to do this and the interest on the bonds will pay the cost of the bank loan. All you have to do is to sign the letter shown here—which you can get from your Victory Loan Salesman. You make a first payment of 10% or more when you apply for the bonds, and pay the balance at any time over a period of six months.

You will be doing an important war job when you do this. You will be helping your country and backing up her fighting men. You will get another reward, too, that will benefit yourself. You will have money, later on, when the war has been won—to do things you plan to do—money to improve your farm and your home.

Invest in Victory

7-40

FARMERS!
WILL YOU HELP THIS WINTER?

If you are not required on the farm this winter you should take other work.

Extra winter workers are needed for woods operations—logging and pulpwood and fuel cutting—base metal mines, coal mines, meat packing and cold storage, grain handling, railway track maintenance, iron foundries and other high priority occupations, varying with the area.

Please offer your services to:

The nearest Employment and Selective Service Office; or

The nearest Provincial Agricultural Representative; or

Your Local Farm Production Committee.

A good response to this appeal is important to Canada's welfare—please act immediately.

Postponement of Military Training continues while in approved essential work off the farm.
